Strategy Report - Medium-High Portfolio May 2024

1st November 2011 – 30th April 2024 – Gross return (since inception)

01/11/2011 - 30/04/2024 Data from FE fundinfo 2024

Please note this chart shows the KMG portfolio before any tax, advisor, DFM, product and wrapper fees.

ARC is an index of some 70 investment management firms allowing you to benchmark us against our peers.

The information contained in this document is an average return for our strategies over various time periods. Because of personal variations including timing of rebalancing, contributions, withdrawals or other individual circumstances, your portfolio performance may be slightly different to the general strategy and performance. Past performance is no guarantee of future success.

Portfolio analysis

Investment objective

The medium-high portfolio offers a diverse fund range with the aim of achieving capital growth over the longer-term. The portfolio has the ability to invest in a broad range of investments on a wide geographical basis. Equity exposure within this portfolio will vary between 50% - 75%. It is aimed at investors with 5 or more years to invest and comfortable with equity investments in their portfolio of no more than 75%.
